

Faster. Cleaner. Automatic.

That's the power of Guardian Access™

With Guardian in your corner, not only are you empowered with the attractive benefits you and your clients need, you now have access to leading and innovative ben admin software that features a modern and real-time connection.

Guardian Access connects leading benefit platforms to revolutionize how you access and manage Guardian products. This seamless experience saves time and eliminates frustration, allowing you to spend your time on more important things.

Faster and easier plan setup

Policy API automates the passing of plan details and rates from Guardian's system to your ben admin — reducing setup time and eliminating errors. We do the work for you, from initial case setup to updates at renewal.

Real-time eligibility updates

Member Benefits API allows for real-time transmission of all member transactions from your ben admin to Guardian and eliminates the need for building and testing of the EDI file, as well as weekly reconciliation. The result is more accurate member coverage, billing, and payroll.

Streamlined EOI process

Evidence of Insurability (EOI) API provides a seamless experience for employees to complete the questionnaire within the enrollment experience, resulting in higher completion rates. It also provides automatic status updates to the employee and HR team. The result is a better overall experience for everyone.

Key benefits of Guardian Access

- Saves time and effort — can be as much as 200 hours per year¹
- Reduces ben admin setup time from weeks to minutes
- Accelerates member data exchange from weekly batch files to real-time transactions
